Dated: 9.8.2016

To,
All State Drug Control Authorities,

Subject: Use of industrial glue to manufacture life saving drugs - Regarding

Sir,

Please find enclosed a copy of online grievance bearing registration number PMOPG/D/2016/0206958 dated 23/07/2016 in respect of Shri P. Suresh regarding the use of industrial glue to manufacture life saving drugs.

In the above mentioned grievance, the complainant has alleged that industrial glue and industrial gelatin is used in large scale in the Indian drug industries especially by the soft gelatin capsule manufacturers. It has been stated that the industrial glue and industrial gelatin used for manufacture of soft gelatin capsules contains highly toxic heavy metals like chromium, lead, arsenic, etc. Also since the manufacturing process is crude and no safety measures are taken during its manufacture, possibility of microbial contamination is also very high which may lead to serious health problems in human beings.

In view of above, you are requested to investigate the matter and also to keep a strict vigil on such activities.

Action taken in the matter may please be intimated to this Office.

Yours faithfully

(Dr. G. N. Singh)

Drugs Controller/General (I)

23 JUL 2016
D&A SECTION

14.07.2016

SUBJECT : Soft gel Pharma Capsules Manufacturers in India are using spurious & substandard Industrial Glue to manufacture life saving drugs which is highly poisonous & contains highly toxic metals like Chromium, Lead and Arsenic etc which are highly injurious to the health of human beings. Those who are consuming these drugs to save their lives may get severe diseases which in turn to the loss of life.

Hence **"Manufacturers of medicines by using industrial glues are the Killers" & they must be penalized & banned to use industrial glue for manufacturing life saving drugs.**

Sir,

Please refer to the above subject matter and like to draw your attention towards the large scale use of industrial glue as gelatin by the Indian Drug Industry in India; few unethical manufacturers & dealers for their greed & to earn more profit are promoting these products to the pharma & health care industry. They are well aware that the use of these products is going to cause severe diseases like cancer to the human being. Even some dealers are importing glue as industrial gelatin in India from China. In China this glue is processed from animal hide; this animal hide is directly boiled & glue is extracted from the hide which is used in the process contains all the highly toxic heavy metals like chromium, lead & arsenic etc. Since the manufacturing process is very crude & no safety measure is taken therein, hence contamination of microbial will be there which is also injurious to health of human beings.

Further this may be noted that dealers, who are importing this Glue / industrial gelatin & supplying to Soft gel capsules manufacturers in India as **Gelatine 160 bloom** are not holding any drug license of Manufacturing or Whole sale dealer.

Few of them which are operating from Delhi are listed below for your ready reference:

- 1 Abblone Impex (P) Ltd, 4th Floor 1596, Bhagirath Palace Delhi-6
- 2 Andhera Gelatin Delhi
- 3 Man Care Labs - Neta Ji Subhash Place, Delhi-34 Mr. Gaurav Agrawal Mob -9811304872

Contd.2/-

Name of the few of Consumers are given below:

1 Alpha Softgel, Baddi Dist Solon (H.P.). Self import also.

2 Orison Sadora Road Kala Amb Dist Sirmur (H.P.)

States where it is widely used are:U.P., Delhi, H.P., Utterakhand, J & K, Punjab, Haryana etc.

Government sitting at center is unaware of the above happenings & subsequently Drugs controller departments at state level are keeping their eyes shut and that is the reasons that above parties received lot of encouragement and are daring to use spurious and substandard product for manufacturing of life saving drugs.

It's a very high time now as those who are indulge in this system for many years & playing with the life of human being; we suggest you to immediately take strict action against them , make raid on these parties, seize their stocks ,records & Punish them as per Cr.P.C for murder & other criminal acts. This action on these parties shall send a signal / message to entire industries in the country not to use such injurious products for manufacturing life saving drugs.

Thanking you,

Yours faithfully,

P.SURESH
