As the seats are limited, we would expect suitable number of nominees, from each State and propose to screen candidates professional/eligibility based on CV/work experience to select those found fit to join this prestigious program. The State Govts may like to identify GDMOs who have done MBBS only working in the Public Health Delivery system as there is a strong felt need to build capacity of this health force.

I would request all the State Governments to introduce this training course in their respective State PIPs and nominate suitable number of candidates to respective institutes. The Institutions have requested the entire amount be paid in one installment at the time of admission to the course for 2010-11. Since the admission needs to be finalized by 30<sup>th</sup> April, 2010. I request the State governments to nominate their candidates to the respective institutions. The institutions will directly approach you on my behalf to clarify the PGDHM Course content or for other logistic inputs.

With regards,

Yours sincerely,
