Sub: IGNOU's Certificate course on Health Care Waste Management (CHCWM)  
for Doctors, Nurses & Para Medical staff of Dept of M&H

The IGNOU- an open university of International repute, has designed certificate and higher courses to aspiring working candidates across the country. One such course of interest for the Dept of M&H is **Certificate course of Health Care Waste Management (CHCWM)**. As this Open University concept will not require the medical officers staff be to be moved out of the duties, it is highly recommended that the Department sponsor its entire work force to undertake this much needed technical input. This certificate program has been developed by IGNOU, WHO and SEARO to create essential knowledge and skills in health care waste and equip the learners to manage it effectively and safely and also safeguard the community against adverse health impact of health care waste.

It would be in the long term interest towards the implementation and legal compliance of the Bio Medical Waste Management and Handling Rules, that the department has not only trained but certified officers and staff in respect of the aspect of Health Care Waste Management.

IGNOU has recently bestowed this responsibility of operating a study centre for Rajasthan in the subject matter at Jaipur to ESA for providing necessary student support services for **Certificate course of Health Care Waste Management (CHCWM)**. The students earlier had to go to Delhi for counseling sessions. Now the counseling sessions & other activities related to this course will be held at Jaipur.

This program is of six months duration i.e. from January to June or July to December and is through open and distance learning.

The last date for enrolling for Jan. - June 2011 session is 31<sup>st</sup> October, 2010. We would appreciate if the department avail this facility. The course fee is Rs. 2800/- (3000/- with late fee) which includes cost of form and examination fee.

Thanking You,

Yours' Sincerely,

Dr. O.P. Sharma

Director
