Signature of the bidder with Seal

3. Bid Price

- (a) The bidder may quote for one or more items in the format of quotations attached.
 - (b) All duties, taxes and other levies payable by the bidder (other than VAT/C.S.T. on the finished goods) shall be included in the item rate. VAT if any should be quoted separately.
 - (c) The rates quoted by the bidder shall be fixed for the duration of the contract and shall not be subject to adjustment on any account except in the event of any subsequent variation in these taxes by the Govt. (State or Central) the same will be modified accordingly
 - (d) The prices should be quoted in Indian Rupees only.
 - (e) The contract shall be for the full quantity of individual item as described above, the rate of partial quantity of an item is not acceptable.
 - (f) Corrections, if any, shall be made by crossing out, initialing, dating and re-writing.
 - (g) Telex or facsimile Quotations are not acceptable. Reproduce charts/ formats or own format would not be accepted .The Bidder has to submit the Bid in the prescribed Bid document provided by the Purchaser.
4. Each Bidder must submit only one quotation for the each item. The financial bid of each item should be submitted in the price schedule (enclosed) in a sealed separate envelope along with Bid form. The Financial bid of Various Blood Bank Equipments shall be opened after Technically Examination.
5. The Bidder shall bear all costs associated with the preparation and submission of its bid, and the Purchaser will not be responsible or liable for those costs, regardless of the conduct or outcome of the bidding process.

6. Bid Form

The Bidder shall complete the Bid Form and each format of Quotation furnished in the Bidding document, indicating the items to be supplied. These should be enclosed with the price schedule of these items in a sealed separate envelope.

7. Language of Bid

The bid prepared by the bidder as well as all correspondence and documents relating to the bid exchanged by the bidder and the purchaser shall be written in English language.

8. Validity of Quotations

Bids shall remain valid for a period not less than 90 days after the deadline date specified for submission. This period can also be extended with mutual consent.

Signature of the Bidder with Seal

9. Bid Security

- a) The bidder has to furnish, as part of its bid, a Bid Security amount as mentioned in the table above. This bid security should be valid up to 45 days beyond the validity period of the bid.
- b) The bid Security shall be in Indian Rupees and shall be in the form of Demand Draft/ Banker's Cheque /B.G. issued by a Nationalized Bank / Schedule Bank located in India in the name of Project Director, Rajasthan State AIDS Control Society payable at jaipur.
- c) Where the bidder has quoted for more than one item, if the Bid security furnished is inadequate for the quoted items, the purchaser shall take the price bid into account only to the extent the Bid is secured. For this purpose, the extent to which the bid is secured shall be determined by evaluating the requirement of Bid security to be furnished for the schedule included in the bid(offer) in the serial order of the table mentioned above of this bidding document.
- d) The successful Bidders Bid security will be discharged upon the bidder signing the contract and furnishing the performance security.

10. **Deadline for submission of Bids** Bids must be received by the purchaser at the address, time and date specified in Para No. 28 In the event of the specified date for the submission of bids being declared a holiday for the purchaser, the Bids will be received up to the appointed time on the next working day.

The purchaser may, at its discretion, extend this deadline for submission of bids by amending the bid document, in which case all rights and obligations of the purchaser and Bidders previously subject to the deadline will thereafter be subject to the deadline as extended.

11. **Late bids** Any bid received by the purchaser after the deadline prescribed for submission of bids, the purchaser will reject and return unopened to the bidder.

12. **Documents Constituting the Bid** The Bidder should send along with the bid the following certificates (in the same order) for the items tendered in.

For Various Blood Bank Equipments:-

- (1) Bid Security as mentioned in schedule of requirement in front of each Item above.
- (2) Income Tax Registration No. (PAN No.) and latest clearance certificate(duly attested)if applicable).
- (3) Sale Tax registration No.(TIN No.) and latest clearance certificate(duly attested).
- (4) Performance statement for the satisfactory supply.
- (5) Letter of authority from the manufacture concerned / certificate of authorized dealer.
- (6) Latest annual turn over statement certified by the auditor.(The bidder should have annually a turn over of at least ruprees1.00 crore)
- (7) Declaration form duly signed and Notarized.
- (8) Bid form (Duly signed).
- (9) Details/documents related to product information in conformity with technical specifications mentioned in the Bid Document.
- (10) certificate regarding ISI or ISO or CE Marked of the product.
- (11) Original Bid documents (duly filled in).

Signature of the Bidder with Seal

In the event of a bid being submitted by a firm each or any member thereof, must sign it. In the event of a partnership firm it must be signed on his behalf by a person holding a power of attorney authorizing him to do so; and in the case of company the bid document should be signed by the manner laid in the articles of Association. Any change in the constitution of the firm/ company shall be notified forthwith by the bidder to the purchaser i.e. Project Director.,Rajasthan State AIDS Control Society, Jaipur, and such change shall not relieve any former of the firm/company from the liability under the contract. No new partner/partners shall be accepted in the Firm/Company by the bidder in respect of the contract unless he/she/they agree to abide by all the terms and conditions and shall submit a written agreement to this effect.

13. Evaluation of Bids

The purchaser will evaluate and compare the bids determined to be substantially responsive i.e. which are properly signed, and conform to the terms and conditions of the contract and Specifications ,the evaluation would be done in the following manner:-

- (a) The evaluation will be done excluding the VAT/CST, if the bidder has included the VAT/CST in his Bid for the item rate, it will be treated as though it is exclusive of the VAT/CST and no down loading of VAT/CST will be made.
- (b) The evaluation will be made for each item separately. The bidder who has offered his Bid for partial quantity would be treated as non-responsive. Purchaser will award the contract for the each item separately to the lowest substantially responsive bidder of the item.
- (c) Arithmetical errors will be rectified on the following basis. If there is discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected. If there is discrepancy between words and figures, the amount in words will prevail. If the Supplier does not except the correction of errors, its bid will be rejected and its Bid Security may be forfeited.
- (d) The purchaser may waive any minor informality or non-conformity or irregularity in a bid, which does not constitute a material deviation, provided such a waiver, does not prejudice or affect the relative ranking of any Bidder.
- (e) Prior to the detailed evaluation, the Purchaser will determine the substantial responsiveness of each Bid to the Bidding documents. For purpose of this a substantially responsive bid is one, which conforms to all the terms and conditions of the Bidding documents and is without material deviations. Deviation from or objections or reservations to critical previsions such as those concerning performance security, warranty, Force Majeure, limitation of liability, Applicable Law and Taxes & Duties will be deemed to be a material deviation. The Purchaser determination of a Bid's responsiveness is to be based on the contents of the Bid itself without recourse to extrinsic evidence.

Signature of the Bidder with Seal

f) During evaluation of Bids the purchaser may at its discretion, ask the Bidder for a clarification of its Bid. The request for clarification and the response shall be in writing and no change in prices or substance of the Bid shall be sought, offered or permitted.

14. Award of Contract

- a) The purchaser will award the contract to the bidder whose bid has been determined to be substantially responsive and who has offered the lowest price as per para 13 (b) above.
- b) The purchaser reserves the right at the time of contract award to increase or decrease the quantities of items indicated in schedule of requirement above by 15% without any change in the unit price or any other terms and conditions.
- c) The purchaser prior to the expiration of the bid validity period will notify the bidder whose quotation is accepted of the award of contract. The terms of the accepted offer shall be incorporated in the purchase order.
- d) Normal commercial warranty/guarantee shall be applicable to the supplied goods.
Payment shall be made immediately after the satisfactory delivery and installation of the equipments and their acceptance.
- e) Notwithstanding the above, the Purchaser reserves the right to accept or reject any Bid and to cancel the bidding process and reject all bids at any time prior to the award of the contract.
- f) The Bidder whose, bid is accepted will be notified of the award of contract by the Purchaser prior to the expiration of the Bid validity period.

15. Performance Security

- 1 a) The Successful bidder has to furnish performance security @ 5% of the total amount of the purchase order rounded to next ten rupees in the form of BG/DD within 7 days from the award of contract along with the signed document on the stamp bond of Rs. 500/- of the contract valid up to four months after the date of completion of performance including warranty obligations. Failure of the successful Bidder to comply with the requirement shall constitute sufficient grounds for the annulment of the award and forfeiture of the bid security. In which event the purchaser may make the award to the next-lowest evaluated bid submitted by a qualified Bidder or call for new bids.

In the event of any corrections of defects or replacement of defective material during the warranty period, The warranty shall be extended to a further period of 4 months and performance bank guarantee for proportionate value shall be extended four months over and above the extended warranty period.

Signature of the Bidder with Seal

- b) The performance security shall be accepted in the form of either
- (i) Bank Draft / Banker's Cheque of a Nationalized Bank/Scheduled Bank located in India.
- Or
- (II) A bank guarantee issued by a Nationalized Bank located in India in the name of Project Director, Rajasthan State AIDS Control Society, Jaipur payable at Jaipur.
 - c) No interest would be paid for the amount deposited as Performance Security.

16.

Liquidated Damages

- I. If the supplier require the extension of time on completion of contractual supply period on account of occurrence of any hindrance, he/ she shall apply in writing for extension on occurrence of hindrance but not after the stipulated date of completion of supply.
 - II. The Purchase committee, Rajasthan State AIDS Control Society may extend the delivery period with or without liquidity damages in case the purchase committee is satisfied that the delay in the supply of goods is on account of hindrances beyond control. **(Force Majeure)**
 - III. Liquidated damages shall be charged @ ½ per week of delay subject to maximum of 10% computed on the value of supplies delayed when delays in the delivery of goods, resulting in extra cost or loss of revenue or loss of other benefits or inconvenience to the implementing agency.
17. The Supplier shall not assign, in whole or in part, its obligation to perform under the contract, except with the purchaser's prior written consent.

18. Packing

The supplier shall provide such packing of the Goods as is required to prevent their damage or deterioration during transit to their final destination as indicated in the contract, the packing shall be sufficient to withstand, without limitation, rough handling during transit and exposure to extreme temperatures, salt and precipitation during transit and open storage. Packing case size and weights shall take into consideration, where appropriate, the remoteness of the Goods final destination and absence of heavy handling facilities at all points in transit.

The packing making and documentation within and outside the packages shall comply strictly with such special requirements as shall be provided for in the contract including additional requirements, specified in technical specifications and in any subsequent instructions ordered by the purchaser.

19. Delivery of Equipment

The Equipments are to be delivered in accordance with the delivery schedule mentioned in the schedule of requirement. The final delivery place will be mentioned in the supply order.

Signature of the Bidder with Seal

20. The supplier shall be required to submit the address of the authorized local service provider for the maintenance of the equipments.

21. Warranty

- (21.1) The supplier warrants that the Goods supplied under the contract will have remaining a minimum of three-fourth of the specified shelf life upon delivery and not subject to recall by the applicable regulatory authority due to unacceptable quality, and in every other respect will fully comply in all respects with the technical specifications and the conditions laid down in the contract. In the event of the Goods are recalled the supplier shall notify the purchaser within fourteen days.
- (21.2). The Warranty shall start from the date of satisfactory installation of the equipments.
- (21.3) Equipments must have at least **2 year warranty**.
- (21.4) The purchaser shall promptly notify the supplier in writing of any claims arising under warranty.
- (21.5) Upon receipt of such notice, the Supplier Shall, with all reasonable speed, Replace the defective Goods without cost to the purchaser. The Supplier will be entitled to remove, at his own risk and cost, the defective Goods once the replacement Goods have been delivered.
- (21.6) In the event of any replacement of Goods during the warranty period, the warranty for the replaced goods shall be extended to a further period of twenty four months.
- (21.7) If the supplier, having been notified, fails to replace the defective goods within a reasonable period, the purchaser may proceed to take such remedial action as may be necessary, at the Supplier's risk and expense and without prejudice to any other rights which may have against the Supplier under the contract.

22. Patent Rights

The supplier shall indemnify the purchaser against all third- party claims of infringement of patent, trademark or industrial design rights arising from use of the goods or any part there of in India

23. Limitation of Liability

Except in cases of criminal negligence or willful misconduct, and in the case of infringement pursuant to patent rights the Supplier shall not be liable to the purchaser, whether in contract, tort, or otherwise, for any indirect or consequential loss or damage, loss of use, loss of production, or loss of profits or interest cost , provided that this exclusion shall not apply to any obligation of the Supplier to pay liquidated damages to the purchaser.

24. Inspection of accounts and records

As per the paragraph 1.14(e) of the bank's Procurement Guidelines may,2004 relating to bank's right, the bidders,shall have to permit the bank to inspect their accounts and records.

25. Applicable Law

The Contract shall be interpreted in accordance with the laws of the union of India.

Signature of the Bidder with Seal

FORMAT OF TECHNICAL BID FOR DI-ELECTRIC TUBE SEALER

Description of Equipment	Specification	Brand name	Qty.

1. A list of service centres of the above mentioned equipment in Rajasthan must be enclosed with this bid.
2. A copy of catalogue/ brochure of the above mentioned equipment may also be enclosed with this bid.

Signature of the Bidder with Seal

FORMAT OF TECHNICAL BID FOR PLASMA EXPRESSOR (MANUAL)

Description of Equipment	Specification	Brand name	Qty.

1. A list of service centres of the above mentioned equipment in Rajasthan must be enclosed with this bid.
2. A copy of catalogue/ brochure of the above mentioned equipment may also be enclosed with this bid.

Signature of the Bidder with Seal

**FORMAT OF TECHNICAL BID FOR REFRIGERATED
WATER BATH (CRYO-BATH)**

Description of Equipment	Specification	Brand name	Qty.

1. A list of service centres of the above mentioned equipment in Rajasthan must be enclosed with this bid.
2. A copy of catalogue/ brochure of the above mentioned equipment may also be enclosed with this bid.

Signature of the Bidder With Seal

FORMAT OF TECHNICAL BID FOR PH METER (DIGITAL)

Description of Equipment	Specification	Brand name	Qty.

1. A list of service centres of the above mentioned equipment in Rajasthan must be enclosed with this bid.
2. A copy of catalogue/ brochure of the above mentioned equipment may also be enclosed with this bid.

Signature of the Bidder with Seal

**FORMAT OF TECHNICAL BID FOR DIGITAL ANALYTICAL BALANCE
(SINGLE PAN)**

Description of Equipment	Specification	Brand name	Qty.

1. A list of service centres of the above mentioned equipment in Rajasthan must be enclosed with this bid.
2. A copy of catalogue/ brochure of the above mentioned equipment may also be enclosed with this bid.

Signature of the Bidder with Seal

FORMAT OF TECHNICAL BID FOR THAWING BATH(PLASMA)

Description of Equipment	Specification	Brand name	Qty.

1. A list of service centres of the above mentioned equipment in Rajasthan must be enclosed with this bid.
2. A copy of catalogue/ brochure of the above mentioned equipment may also be enclosed with this bid.

Signature of the Bidder with Seal

FORMAT OF TECHNICAL BID FOR STERILE CONNECTING DEVICE

Description of Equipment	Specification	Brand name	Qty.

1. A list of service centres of the above mentioned equipment in Rajasthan must be enclosed with this bid.
2. A copy of catalogue/ brochure of the above mentioned equipment may also be enclosed with this bid.

Signature of the Bidder with Seal

FORMAT OF TECHNICAL BID FOR COAGULOMETER

(SEMI-AUTOMATED)

Description of Equipment	Specification	Brand name	Qty.

1. A list of service centres of the above mentioned equipment in Rajasthan must be enclosed with this bid.
2. A copy of catalogue/ brochure of the above mentioned equipment may also be enclosed with this bid.

Signature of the Bidder with Seal

**TECHNICAL SPECIFICATIONS OF
BLOOD BANK EQUIPMENT**

Dielectric tube sealer

- It should be portable to carry easily & weight should be less than 3 Kgs & should be supplied with suitable carry bag.
- Sealing capacity should be 750 per hour/1500 sealing per charged battery.
- It should be a heavy duty Radio Frequency Tube Sealer & should conform to US-FDA guidelines.
- It should have rechargeable batteries with a back up of 6 hours.
- It should have automatic detection of tube by pressing of a lever which activates sensor.
- The sealing time should not be more than 2 seconds.
- It should have separable rupture line to separate tube ends after sealing.
- It should have provision for detection of wet tube, Leakage and Sealing defect & have alarm system if sealing is not safe and complete.
- It should have uniform sealing irrespective of power supply variations.
- It should be suitable for various types of blood bags and should seals 3.0 to 5 mm size tubes with wall thickness 0.75 mm.
- It should have facility to indicate "Ready, Seal and Power".
- It should have protection against electric shock.
- Firm should submit the literature of quoted model.
- If additional features are there should be quoted separately.

**TECHNICAL SPECIFICATIONS OF
BLOOD BANK EQUIPMENT**

Manual Plasma Expresser

- It should be suitable to extract blood components like plasma, platelets from collection container.
- It should be Manual operated.
- Front panel should be spring loaded to exert uniform pressure on container i.c. blood bag so that fluid can be transferred.
- Compression plate should be made of transparent acrylic material & should be durable
- It should be non corrosive & can be cleaned easily with antiseptics.
- Specifications of Manual plasma expresser should conform to NACO specifications & if firm submits some additional features, the rates should be quoted separately for same with features.
- Complete specification details along with leaflet should be supplied with offer of quoted model.

**TECHNICAL SPECIFICATIONS OF
BLOOD BANK EQUIPMENT**

Refrigerated Water Bath

- Features : It should include timer of 2 hours fixed and variable temperature control, over temperature safety limit with audio visual alarm, power switch and digital temperature display, number of digit and resolution shall be included in the offer.
- Capacity : 65 litres
- Storage Capacity : Holds up to minimum 5 stainless steel racks.
- Overall interior dimension : It should be indicated by the bidder.
- Operating temperature : +4°C control sensitivity plus minus 0.2°C.
- Uniformity plus minus 0.2°C.
- ambient temperature may be as high as 45°C.
- The equipment should be able to thaw 15 plasma units in about 90 minutes. The equipment should have :
 - (a) Stainless steel filter screen for protecting pump intake from debris such as levels etc.
 - (b) Stainless steel tank of 22 gauge designed with curved corners for easy cleaning.
 - (c) Stainless steel lid at least 20 gauge.
 - (d) Outside mild steel sheet of 18 gauge.
- The following accessories should be part of configuration
 - (i) Compression rack holder.
 - (ii) Frozen Plasma rack holder.
 - (iii) Thermometer for visual verification of water temperature.

TECHNICAL SPECIFICATIONS OF
BLOOD BANK EQUIPMENT

pH Meter (Digital)

- It should be digital electronic pH Meter with combination pH electrodes
- It should have pH Range: 0.0 to 14.0 pH with 3½ digital display
- It should have 0.0 to 1999 mv range.
- Its have accuracy - repeatability and resolution : 0.01 pH.
- Calibration solution should be provided
- Temperature compensation & pH standardization: 0° to 100°C (manual)
- It should be operational on 220-240 volts, 50 Hz, single phase supply
- It should work properly on ambient Temperature: 0° to 40°C. 40°C at 95% RH.
- It should have suitable, rechargeable battery with a battery charger.
- The details of battery should be provided.
- Equipment should be supplied in suitable case.
- Suitable battery charger to be supplied with the equipment.
- The firm shall submit the tech. specification with leaflets of quoted model. If there are any additional features quoted separately.

**TECHNICAL SPECIFICATIONS OF
BLOOD BANK EQUIPMENT**

Digital Analytical Balance (Single pan)

- It should have single pan & should be of stainless steel.
- It should have following features :-
- Capacity: 200 grams
- Readability: 0.001 gram
- Linearity: ± 0.002 gram
- Reproducibility: ± 0.001 gram
- Dimension: To be quoted
- Percentage weighing, counting tar (0-200 grams) auto calibration with built in masses.
- The balance should have draft shield.
- It should work on 220-240 volts single phase, 50 Hz power supply.
- It should smoothly work on 0-40°C in ambient condition.
- Details of Model, complete technical specifications with leaflet should be submitted with offer.
- Text certificates should be submitted at the time of inspection.
- Rates should be quoted for standard model as per NACO specification & if some additional features are these, quoted separately.

**TECHNICAL SPECIFICATIONS OF
BLOOD BANK EQUIPMENT**

Plasma Thawing Bath

- It should have table top with top opening.
- It should have a deep thawing chamber with water maintained at +37°C & have pumping mechanism and in-line heating system for uniform thawing.
- It should be able to thaw 4/8 plasma bags (FFP/ cryoprecipitate / Apheresis or plasma bags of any size).
- It should have water bath based system operating at a preset and precise temperature of 37°C.
- It should have Temperature setting system, programmable from ambient temperature to 56°C.
- It should have two separate basket assemblies with built-in fingers for securely holding the plasma bags of all sizes.
- It should give an alarm when the plasma bags are thawed.
- It should have provision for programmable time setting for length of thawing.
- It should have digital timer clearly displaying the programmed set time or remaining cycle in minutes.
- It should have audio visual over-temperature alarm system
- It should have a deep thawing chamber with a stirrer
- It should have a system to drain the chamber within 3 minutes.
- Equipment should be supplied with a suitable cover.
- Thawing time should be less than 20 minutes
- It should have alarm system for over heating & operation completed.
- It should have LED display system for easy operation.
- It should be operational on single phase 220-240 volts - 50 Hz, power supply.

Following accessories to be supplied:-

- (a) Plastic over wrap bag
- (b) Frozen plasma bag holder
- (c) Compression rack holder
- (d) Reference glass thermometer
- Technical specifications of quoted model should be supplied with leaflets.

TECHNICAL SPECIFICATIONS OF
BLOOD BANK EQUIPMENT

Sterile Connecting Device

- It should be capable of docking Wet – Wet / Wet – Dry / Dry – Dry tubes
- It should be capable of docking tubes with all types of blood bags.
- The total process should be completed within 20-30 seconds.
- The tube length should be as small as possible which is to be docked.
- LED indicators to be provided to display the whole process with alarms.
- It should be operational on 220 to 240 volts at 50 Hz. & power supply single phase.
- Firm should submit the complete specifications with leaflet of quoted model.
- If any consumables are to be supplied, it should be quoted with the cost & should be available with the vendor.

**TECHNICAL SPECIFICATIONS OF
BLOOD BANK EQUIPMENT**

Semi -Automated Coagulometer

- It Should be microcomputer controlled
- It should be semi automatic with at least 4 channels optics
- Based on optical principle, LED with 450 nm
- It should have integrated incubation block 24 pre-warming positions, 4 measuring positions
- It should be suitable for PT, a-PTT, fibrinogen, thrombin time, factors: II, V, VII, VIII, IX, X, XI, XII, Fletcher, AT-III, Protein C, Protein S, Heparin, STAT
- Results can be represented in seconds, %activity, ratio, INR g/L and mg/L
- It should be able to store specific test parameters in the system
- It should have LCD display
- Printer could be attached to computer
- It should generate the standard curve for factor assays
- A suitable UPS with 20 minutes backup should be provided with the system
- System should be open so that any reagent can be used
- It should have CE certification
- Complete technical specification should be supplied of quoted model with leaflets.

Annexure I-1

Requirement of Blood Bank for Procurement of Di-electric Tube Sealer

S.No.	Name of Blood Bank	Qty.
1	Blood Bank Incharge, J.L.N. Medical College and Associated Group of Hospitals , Ajmer (Raj).	2
2	Blood Bank Incharge, M.B. Medical College and Associated Group of Hospitals, Kota (Raj).	2
3	Blood Bank Incharge, M.B.S. Medical College and Associated Group of Hospitals, Udaipur (Raj).	2
4	Blood Bank Incharge, P.B.M. Hospital, Bikaner (Raj).	2
